Studia — System Requirements Document (v0.2)

Product owner: Youssef Taher · Status: Draft for review · Supersedes: v0.1

Items marked **[Assumption]** are proposed defaults. Confirm or change them before this version is final (see section 7).

1. Product Overview

Field	Details
Product name	Studia
One-line description	A simple system to manage students' studies
Problem it solves	Helps students stay organized with their coursework and university life
Target users	University students
Product owner	Youssef Taher
Version	0.2

2. Scope

In scope for this version: account registration and login, course management, to-do tasks with due dates and priorities, file attachments on courses and tasks, and a dashboard.

Out of scope for this version: sharing courses or files with other students, notifications and reminders, calendar integrations, a native mobile app, instructor or admin roles, and collaboration features.

3. Users and Assumptions

- There is a single user role: the student. Each student sees only their own data.
- **[Assumption]** Studia is a responsive web application used in modern desktop and mobile browsers.
- **[Assumption]** Students sign in with an email address and password.

4. Functional Requirements

One requirement per row. Priority: High, Medium or Low. Status for all rows is *Proposed* until the product owner approves this version.

4.1 Accounts and authentication

ID	Requirement	Priority	Acceptance criteria
FR-01	The system shall allow a student to register with a name, email address and password.	High	A new account is created with valid input. A duplicate email or invalid input is rejected with a clear message.
FR-02	The system shall allow a registered student to log in with their email and password.	High	Correct credentials open the dashboard. Incorrect credentials show an error and do not reveal which field was wrong.
FR-03	The system shall allow a logged-in student to log out.	High	After logout, protected pages are no longer accessible without logging in again.
FR-04	The system shall allow a student to reset a forgotten password through a link sent to their email.	Medium	A reset link is emailed, works once, and expires after a limited time. **[Assumption]**
FR-05	The system shall allow a student to access only their own courses, tasks and files.	High	Requests for another student's data are denied.

4.2 Courses

ID	Requirement	Priority	Acceptance criteria
FR-06	The system shall allow a student to add a course with a required name and optional course code, instructor and semester.	High	A course without a name is rejected. A valid course appears in the student's course list.
FR-07	The system shall allow a student to view the list of their courses.	High	All of the student's courses are listed, and none belonging to others.
FR-08	The system shall allow a student to edit a course's details.	Medium	Saved changes appear immediately in the course list.
FR-09	The system shall allow a student to delete a course after confirming.	Medium	The course is removed. Its attached files are deleted. Tasks linked to it are kept and become unlinked. **[Assumption]**

4.3 Tasks

ID	Requirement	Priority	Acceptance criteria
FR-10	The system shall allow a student to create a to-do task with a required title and an optional description.	High	A task without a title is rejected.
FR-11	The system shall allow a student to optionally link a task to one of their courses.	High	A task can be created with or without a course. The linked course is shown on the task.
FR-12	The system shall allow a student to set an optional due date on a task.	High	The due date is saved and shown on the task.
FR-13	The system shall allow a student to set a task's priority as Low, Medium or High.	High	New tasks default to Medium. **[Assumption]**
FR-14	The system shall allow a student to mark a task as completed and to reopen a completed task.	High	A completed task is marked as done and no longer counts as upcoming.
FR-15	The system shall allow a student to edit a task's details.	High	Saved changes appear immediately.
FR-16	The system shall allow a student to delete a task after confirming.	High	The task and its attached files are removed.
FR-17	The system shall allow a student to filter their tasks by course, status and priority.	Medium	The list shows only tasks matching the selected filters. **New in v0.2**

4.4 File attachments

ID	Requirement	Priority	Acceptance criteria
FR-18	The system shall allow a student to attach one or more files to a course.	Medium	Attached files appear on the course page.
FR-19	The system shall allow a student to attach one or more files to a task.	Medium	Attached files appear on the task.
FR-20	The system shall accept only PDF, PNG, JPG, DOCX and TXT files of up to 10 MB each, and reject all others with a clear message.	Medium	Unsupported or oversized files are rejected and nothing is stored. **[Assumption]**
FR-21	The system shall allow a student to view an attached file in the browser where the file type supports it.	Medium	PDFs and images open in the browser. Other types offer download.

ID	Requirement	Priority	Acceptance criteria
FR-22	The system shall allow a student to download an attached file.	Medium	The downloaded file matches the uploaded file.
FR-23	The system shall allow a student to delete an attached file after confirming.	Medium	The file is removed and can no longer be opened.

4.5 Dashboard

ID	Requirement	Priority	Acceptance criteria
FR-24	The system shall display on the dashboard the student's courses.	High	All of the student's courses are shown, with a link to each.
FR-25	The system shall display on the dashboard the student's upcoming tasks, defined as incomplete tasks due within the next 7 days, sorted by due date.	High	Matching tasks appear in order. **[Assumption]**
FR-26	The system shall visually mark overdue tasks on the dashboard.	Medium	Incomplete tasks past their due date are clearly flagged. **New in v0.2**

5. Non-Functional Requirements

ID	Category	Requirement
NFR-01	Security	Passwords shall be stored securely hashed, never in plain text.
NFR-02	Security	All traffic shall use HTTPS, and sessions shall expire after a period of inactivity.
NFR-03	Privacy	Uploaded files shall not be publicly accessible; access requires a logged-in session of the owning student.
NFR-04	Performance	The dashboard shall load in under 2 seconds for an account with up to 50 courses and 500 tasks. **[Assumption]**
NFR-05	Storage	Each student shall have a storage limit of 100 MB for attached files. **[Assumption]**
NFR-06	Usability	All screens shall be usable on both phone and desktop screen sizes.
NFR-07	Compatibility	The application shall work on the current versions of Chrome, Firefox, Safari and Edge.
NFR-08	Reliability	Deleting or editing data shall never affect another student's data, and user data shall be backed up regularly.
